welcome

Dear Colleagues and Friends,

It is our great pleasure to invite you to the BioHorizons Global Symposium 2026! This event, held under the theme “The Future is Now”, brings together innovators, thought leaders and dedicated professionals who share a common goal: to advance our field and shape its future.

Our program is designed to inspire, challenge and empower you with fresh ideas, practical skills and meaningful connections. From world-class speakers to immersive hands-on workshops and networking opportunities, we are confident you will find this event both enriching and energizing.

We encourage you to fully engage — ask questions, share insights and collaborate with peers from around the globe. Together, we can push boundaries, explore new solutions, and continue driving excellence in our profession.

Your participation, insight and collaboration will make the BioHorizons Global Symposium a meaningful and memorable experience. Together, we are poised to make significant strides in advancing our field.

Scientific Chairman

the future is now | transforming dental implantology today

ABOUT SYMPOSIUM

Experience the BioHorizons Global Symposium 2026 at the Fontainebleau Miami Beach — where top minds from around the world come together to explore the latest innovations in implant dentistry and tissue regeneration.

Expect engaging sessions, cutting-edge technology and invaluable networking opportunities. Join us in Miami Beach and elevate your practice with fresh insights and renewed inspiration. We can't wait to see you there!

WHAT TO LOOK FORWARD TO

Leading-edge topics

Advances in regeneration & reconstruction
Innovations in soft tissue management
Strategies for peri-implant health & disease control
Digital integration in prosthetics & implant dentistry
Optimizing practice growth & clinical outcomes

Personalized learning

Customize your experience by selecting from a diverse lineup of workshops.

World-class thought leaders

40+ internationally respected speakers sharing real-world, evidence-based strategies for success in today's implant practice.

OUR SPEAKERS

Our distinguished speakers come from across the globe, each recognized for their leadership, innovation and contributions to implant dentistry. Through lectures, workshops and discussions, they'll share valuable perspectives and techniques to help you enhance outcomes and expand your impact.

AGENDA

DAY 1 | THURSDAY, APRIL 16

workshops

Successful soft tissue grafting with allografts and xenografts Dr. Edward P. Allen 8:00am-noon Tuition: \$795 Hands-on *Limited to 30 attendees	Submerged approach for peri-implantitis intraosseous defects regeneration Dr. Hom-Lay Wang 8:00am-noon Tuition: \$395 Hands-on *Limited to 30 attendees
Implant pro: Elevate your skills and practice for growth Dr. Robert Stanley 8:00am-noon Tuition: \$195 Lecture	Making sense of guided bone regeneration (GBR): The rules and tools for repeatable success Dr. David Wong 8:00am-noon Tuition: \$395 Hands-on *Limited to 30 attendees

The workshops will not be simultaneously translated unless otherwise noted.

DAY 1 | THURSDAY, APRIL 16

pre-simposio de habla Hispana

8:10am-12:10pm | Ingreso Libre | Créditos CE: 4 | Cupos Limitados

TIME	TITLE	SPEAKER
8:10am-8:15am	Welcome & introduction	Dr. Gonzalo Blasi (Spain)
Critical factors in the maintenance of peri-implant health & stability Moderator: Dr. Gonzalo Blasi (Spain)		
8:20am-8:50am	Critical factors in the maintenance of peri-implant bone levels	Dr. Gonzalo Blasi (Spain)
8:50am-9:20am	How to implement digital tools to assure soft and hard tissue management during implant placement	Dr. Francisco Salvador García (Mexico)
9:20am-9:50am	How to implement digital tools to assure accurate implant supported restorations	Dr. Cristian Abad (Ecuador)
9:50am-10:20am	Soft tissue matters: enhancing function, esthetics and longevity in implantology	Dr. Alejandra Chaparro (Chile)
10:20am-10:30am	Discussion panel	Moderated by: Dr. Gonzalo Blasi (Spain)
10:30am-10:45am	Break	
Excellence in surgical & restorative practice Moderator: Dr. Guillermo Bernal (Colombia)		
10:45am-11:20am	Surgical implant placement in the era of digital precision and biological innovation	Dr. Alfonso Gil (Spain)
11:20am-11:40am	Excellence in restorative planning and execution	Dr. Julián Conejo (Costa Rica)
11:40am-noon	Achieving excellence in hard and soft tissue management for the treatment of peri-implant diseases in the esthetic zone	Dr. Maria Elisa Galárraga (Ecuador)
12:00pm-12:10pm	Discussion panel	Moderated by: Dr. Guillermo Bernal (Colombia)
12:10pm-1:00pm	Lunch

DAY 1 | THURSDAY, APRIL 16

scientific program

TIME	TOPIC	SPEAKER
1:00pm-1:15pm	Welcome & introduction	Steve Boggan, President & CEO, BioHorizons & Dr. Homa Zadeh, Scientific Chairman
Soft tissue evolution: Cutting-edge strategies in peri-implant augmentation		
1:15pm-1:55pm	Advantages of the coronally advanced tunnel with acellular dermal matrix for soft tissue grafting at teeth and implant sites	Dr. Edward P. Allen
1:55pm-2:35pm	Applying P4 medicine in preventing peri-implant diseases	Dr. Purnima Kumar
2:35pm-3:15pm	Applications of biologic mediators in regenerative therapy	Dr. Mia Geisinger
3:15pm-3:45pm	Break	
Peri-implantitis reimaged: Prevention, diagnosis and the future of management		
3:45pm-4:25pm	Untangle the myth of peri-implantitis: Definitions, etiologies and decision tree for treatment	Dr. Hom-Lay Wang
4:25pm-5:05pm	Complications management in the esthetic zone	Dr. Marius Steigmann
5:05pm-5:35pm	Discussion panel	Moderated by: Dr. Homa Zadeh
5:35pm-6:35pm	Welcome reception	

The Symposium language is English. The scientific program will be simultaneously translated into Spanish. Translation services may be subject to change.

Full program details are available at symposium.biohorizons.com. Program may be subject to change.

DAY 2 | FRIDAY, APRIL 17

scientific program

TIME	TOPIC	SPEAKER
Foundations of the future: Advances in hard tissue regeneration		
8:00am-8:40am	Limitations of bone augmentation: What we can and cannot achieve	Dr. Tara Aghaloo
8:40am-9:20am	Defects involving multiple adjacent teeth in the esthetic zone — A challenging treatment dilemma	Dr. Bach Le
9:20am-9:50am	Break	
Frontiers in tooth replacement therapy		
9:50am-10:25am	Making connections — Prosthetic platforms	Dr. Katja Nelson
10:25am-11:00am	Treatment options for deficient vertical height	Dr. Craig Misch
11:00am-11:30am	Immediate implant rehabilitation: Bridging surgery and prosthetics with digital workflow innovations	Dr. Shaun Young
11:30am-noon	Discussion panel	
12:00pm-1:00pm	Lunch	
Full arch forward: Innovative planning for complex reconstructions		
1:00pm-1:45pm	Predictable immediate placement and loading	Dr. Michael Pikos
1:45pm-2:30pm	Optimizing FP1 outcomes in full-arch implant therapy	Dr. Ramón Gómez Meda
2:30pm-3:15pm	Digital workflow protocols in full-arch implant rehabilitations	Drs. Carlo Ercoli & Kostas Chochlidakis
3:15pm-3:45pm	Break	
Treatment of severely resorbed patients		
3:45pm-5:05pm	Next-generation reconstruction: Custom plates for severe bone atrophy	Dr. Shuaib Malik
5:05pm-5:35pm	Discussion panel	Moderated by: Dr. Bach Le

Scan for full topic descriptions

DAY 3 | SATURDAY, APRIL 18

scientific program

TIME	TOPIC	SPEAKER
Digitally driven: The future of prosthetic design & delivery		
8:00am-8:40am	The future of the smile: Steps to make digital precision meet esthetics and function	Drs. Álvaro Blasi & Gonzalo Blasi
8:40am-9:20am	Dynamic navigation: Guided implants, beyond implants and related procedures	Dr. Silvia La Rosa
9:20am-10:00am	Optimizing surgical efficiency and results with digital solutions	Dr. Robert Stanley
10:00am-10:30am	Break	
Digitally driven: The future of prosthetic design & delivery (continued)		
10:30am-11:10am	Leveraging anatomical healing abutments in digital workflow	Dr. Bradley Purcell
11:10am-11:50am	Grammetry vs. photogrammetry: Digital precision in implant dentistry	Dr. Wael Garine
11:50am-12:10pm	Discussion panel	Moderated by: Dr. Katja Nelson
12:10pm-12:20pm	Closing ceremony	
12:20pm	Lunch on own	

The Symposium language is English. The scientific program will be simultaneously translated into Spanish. Translation services may be subject to change.

Full program details are available at symposium.biohorizons.com. Program may be subject to change.

DAY 3 | SATURDAY, APRIL 18

workshops

Immediate implant strategies for practice efficiency and revenue growth Dr. Curry Leavitt 9:00am-noon Tuition: \$295 Hands-on demonstration *Limited to 30 attendees	Photogrammetry in action — enhancing AOX delivery Dr. Wael Garine 1:30pm-4:30pm Tuition: \$295 Hands-on demonstration *Limited to 30 attendees
A paradigm shift: Perio-prostho approach for predictable FP-1 rehabilitation Dr. Ramón Gómez Meda 9:00am-4:00pm Tuition: \$995 Hands-on *Limited to 30 attendees	Digital workflow in single tooth replacement Dr. Bradley Purcell 1:30pm-4:30pm Tuition: \$295 Hands-on demonstration *Limited to 30 attendees
AI meets full arch: Unlocking growth through smarter patient engagement Stacy Farley, Founder – Full Arch Sales Experts Amol Nirgudkar, CEO – Patient Prism Ardi Safi, Co-Founder & Strategist – DDS Marketing Moderated by: Dr. Brian Baliwas 1:30pm-4:30pm Tuition: \$195 Lecture	Scaling your full arch practice through digital efficiency: A business-focused hands-on course Dr. Shaun Young 1:30pm-4:30pm Tuition: \$395 Hands-on *Limited to 30 attendees

dinner & cocktail party

Havana nights

**YOU'RE INVITED TO A
DINNER & COCKTAIL PARTY!**

FONTAINEBLEAU MIAMI BEACH

OCEAN LAWN

SATURDAY, APRIL 18, 2026

7:00-10:00PM

\$150 PER GUEST TO ATTEND

HOW TO REGISTER

Registration and hotel accommodations

To register and book your hotel,
visit symposium.biohorizons.com
or scan the QR code

Clinician (on/before February 19, 2026): \$895

Clinician (after February 19, 2026): \$995

Dental assistant/office staff: \$695

Lab technician: \$695

Student/resident: \$695

Military: \$695

You will earn 16 CE credit hours for participation in the
scientific program. Participate in a workshop to earn
additional CE credit hours.
